

Dairy Asia
for health and prosperity

Indonesia
Rozak M Astira

National Focal Point and Steering Committee Meeting
Bangkok, 9-10 March 2017

Outcomes of the multi-stakeholder meeting

Multi-stakeholder meeting had been carried out in:

1. Indonesian Center for Animal R & D: February 27 in Bogor , mostly attended by researchers of around 40 person. The institutions involved are: Veterinary Research Institute, Indonesian Research Institute for Animal Production
2. DG of Livestock and Animal Health Services: March 3, 2017 at Jakarta, mostly attended by Livestock and Animal Health Services at provincial and districts level as center dairy production. Around 30 person had participated this venue from West Java, Central Java and East Java.

Three pillars that are most relevant discussed with participants:

SO 1: Improving productivity and farm profitability

SO 2: Integrate small-scale producers in the modern value chain through promotion of fair and efficient markets

SO7: Enhance level of education through school milk programmes and transfer of knowledge and best practices to all actors involved in the dairy chain

List of activities planned under the DA framework
